## THIS IS ME

Developer with a background in Quality Assurance, Technical documentation and Training. I have a curious mindset, eager to learn and build thoughtful digital experiences. I value quality - not just in code, but in the impact it creates. Loyal and hands-on, I'm a team player who takes initiative and enjoys tackling challenges to deliver meaningful, well-crafted solutions.

## EDUCATION

### Technigo
**Javascript Bootcamp, 2025 Jan-Oct**

32-week remote bootcamp focused on JavaScript (ES6), TypeScript, React, HTML5, CSS, and Node.js. Built weekly projects from fundamentals to full web apps using modern tech. Practiced Agile with sprint planning, demos, and reflections, plus extensive mob- and pair-programming.
Highlights: JavaScript, TypeScript, React, Node.js, HTML, CSS.

### Konsultbolag1 - AFRY AB
**Effective test methodology, 2021**

Covered the fundamentals of testing principles, the testing process, and the various roles involved. Gained knowledge in test follow-up, testing tools, and automation possibilities. The course also provided insight into defect management, reporting, and how to prepare tests using checklists and clear instructions. Included different testing methods, levels, and types of testing.

### ÅSÖ Komvux
**PROGRAMMING 1 C#, 2018**

The basics of writing, analyzing, and improving code. Knowledge of core programming concepts, algorithms, data structures, and how to write efficient, maintainable code in language C#.
